

TURG'UNBOYOV SHAXRIYOR

Hello, I am Turgunov Shakhriyor, an experienced programmer and web developer. I have done and worked on many projects during my experience. I am proficient in HTML, CSS, JavaScript, Python, React, Scss. Google, Facebook in the future I will go to work and gather a team for myself again. I have tried to achieve these goals. If you have any questions about my work or experience, please feel free to contact me.

I began my journey as a web developer in 2019, and since then, I've continued to grow and evolve as a developer, taking on new challenges and learning the latest technologies along the way. Now, in my 7 years after starting my web development journey, I'm building cutting-edge web applications using modern technologies such as Next.js, TypeScript, Nestjs, Tailwindcss, Supabase and much more.

When I'm not in full-on developer mode, you can find me hovering around on twitter or on indie hacker, witnessing the journey of early startups or enjoying some free time. You can follow me on Twitter where I share tech-related bites and build in public, or you can follow me on GitHub.
